📄 How It Works — 4 Steps, Zero Skill Required

Think of it like signing up for a free gym trial — except you're using a generated card number so no real money is involved.

Step 1 — Open this referral link (this is what triggers the extended trial):

:backhand_index_pointing_right: <https://account.proton.me/refer-a-friend?referrer=W04PJMYY>

Step 2 — Create a new Proton account with any email address.

Step 3 — When it asks for payment, pick the premium plan and enter the BIN details from below. Think of the BIN as a template — it generates a card number that passes verification without charging anything real.

Step 4 — Complete signup. Premium activates instantly — all servers, max speed, everything unlocked.

Why it works: The referral link extends the trial window. The BIN passes Proton's card check without a real payment method. Together = full premium for 14 days at \$0.

🔄 After 14 Days — How to Repeat

Make a new email address (temp mail works)

Open the same referral link again

Sign up with the new email + same BIN method

Premium reactivates — another 14 days

Always use a fresh email per cycle. Same email = Proton flags it.
